MR. JOSEPH MCCORMICK, a well-known lawyer and politician of this city before the war, and in 1851 Attorney General of Ohio, died in San Francisco recently, aged sixty-one.

The Court of Common Pleas has granted a writ of error in the case of John Borgman, the vault clerk.

He was fined \$5 for refusing to use "an endless machine."

A BOLD BURGLAR entered the house of Simon Fletcher, 365 West Fourth street, by means of the cellar transom at three o'clock Friday morning, and secured a valuable gold watch.

THE HAT of Joseph Jacobs, the victim of that mysterious scalding case, has been found in Meier's brewery. This looks bad, as the foreman of that establishment testified that the deceased was never in there.

THERE are now three more months to find at No. 2 Whitaker street. They are put in an appearance Saturday. They can't all be fed at once, though.

Mr. Hagman, the father, has the sympathy of the community.

THE Egner case was given to the jury about 4 o'clock Saturday, since which nothing has been heard from them until this morning, when they asked for instructions, to-wit: "Does circumstantial evidence convict?" The Court answered: "It may convict."

CORONER MALEY will hold an inquest at 8 o'clock this evening on the body of a little colored child by the name of Josie Bates, supposed to have died of convulsion, though certain suspicious circumstances connected with the affair induced Dr. Marcus to file information with the Coroner and ask that an inquest be held. The body is now lying at Hall's, the city undertaker.

ELMER M. JELLY, a young lawyer of 201 Vine street, was shot and dangerously wounded Dr. John T. Mason, of the same place, Friday night. The ball entered the right side of the face and lodged close to the jugular vein. The shooting was the result of an altercation growing out of Jelly's persistency in paying his addresses to Dr. Marcus's daughter after he had been frequently forbidden the house. Jelly escaped. The doctor's wound is not necessarily fatal.

SEBASTIAN KUDERMAN, a stone-cutter at California, Ohio, died Friday night in a mysterious manner, and it is supposed that he either committed suicide or was poisoned. The deceased boarded at the California Hotel, kept by John Roddy, with whom he had several difficulties, the last being on Friday night, when Roddy gave him a severe beating. An inquest was held Saturday by a Magistrate near California, but a nephew of the deceased, who suspects foul play, and is anxious to have a more thorough investigation of the case than was given it, notified Coroner Maley, who left for California this morning, to hold a second inquest.

Donovan went to the third floor on the elevator; leaving it a moment, another employee on the floor above removed the platform, which left the hatchway open. The Lightning Jerkers.

A meeting of the employees of the Western Union Telegraph Company was held yesterday morning, the object of which was to take action upon the proposed general reduction of salaries of all employees exceeding \$600 per annum. Mr. Geo. Gilliland occupied the Chair, and Mr. C. E. Higdon was appointed Secretary. A committee was appointed to draft resolutions, respectfully remonstrating against such a course. The following covers the ground:

Whereas, We believe, as a class, we are poorly compensated for the responsible duties performed, and many of us having become veterans in the service of said company, we do not believe said resolution an act of justice; and while we have no intention of taking any action that would embarrass the business of the company or the public at large, we earnestly ask a reconsideration of the action of said Executive Board, believing that the true interests of the company will not suffer in consequence, and that a feeling of harmony may be cultivated and fostered between the employers and employees to the mutual advantage of both by the said reconsideration, therefore,

We would respectfully request that you will join with us in procuring an annulment of the action referred to.

That these resolutions as passed at this meeting be submitted to George T. Williams, Superintendent, and be circulated in the Seventh District for signatures of the employees.

Immense Wire Ropes.

[New York Bulletin.]

Commodore Shufeldt has ordered the proper authorities of the Boston Navy Yard to make several 7-inch steel wire ropes. These will probably be the largest wire ropes ever made. The Navy Department has use for immense hawsers to tow monitors and vessels in distress. They are put on board the men-of-war for use when required. The usual appliance is a 12-inch hemp rope, but it swells when wet, and gets very heavy by absorption of water. The steel wire hawsers will be 7 inches less in diameter, much lighter, non-absorbent, more pliable and durable, and in every respect better. This is a curious, and, in fact, wonderful advance in the application of steel and iron to commercial uses. A hemp hawser 12 inches thick is a wonder of itself, but a steel wire hawser 5 inches in thickness, better answering the same purpose, is something fruitful of thought to the student in shipbuilding and rigging.

"O wearisome condition of humanity!"

How many wretched homes in our land! How many heart-broken invalids! Life with many ailments a mere onerous existence. All are subject to disease, but when health is removed the hope is nearly gone out. Sickness is usually incurred through exposure or carelessness. Especially is this true with those delicate and nervous women. Through her own imprudence and folly she is made to drag out a miserable existence—a source of annoyance and anxiety to her friends, and any thing but a comfort and pleasure to herself. Exposure to the cold at times when she should be most prudent, and overtaxing her body with laborious employment, are both fruitful causes of many of the maladies from which she suffers. Gradually the bloom leaves her cheeks, her lips grow ashy white, her vivacity departs, she continually experiences a feeling of weakness and general languor, and altogether presents a ghastly appearance. What does she need? Should she take some stimulating drug, which will for the time make her "feel better" or does her entire system demand reparation? She requires something which not only will restore to health the diseased organs, but will tone up and invigorate the system. Dr. Pierce's Favorite Prescription will do this. It imparts strength to the diseased parts, brings back the glow of health, and restores comfort where previously there was only suffering.

Every invalid lady should send for "The People's Common Sense Medical Adviser," in which over fifty pages are devoted to the consideration of those diseases peculiar to women. It will be sent, post-paid, to any address for 25 Cts. Address R. V. Pierce, M. D., World's Dispensary, 231 N. York St., New York. Agents wanted to sell this valuable work.
